A letter to the Seniors,

Over the past four years, we all have designed our own Letterman Jacket, each one varying in style, shape, and color. It has not become just a symbol for the athletes, but for any Wachusett Student who takes pride in wearing the "W". As freshmen, we were each handed our own Letterman Jacket, and given the opportunity to make it our own. By the end of our senior year, it became a jacket filled with all different pins and patches that express who we are. We have sewn on a variety of patches for our achievements and accomplishments in academics, sports, the arts and business. We have also pinned on different symbols to help us recollect the memories we have made at Wachusett; friendships we have formed, proms we attended, clubs and teams we were a part of, or the Badlands where we gathered cheering on our favorite team. In the end, these patches and pins have made us who we are today, and have taught us life lessons we will never forget. As our senior year comes to an end, it is time for us to hang up our jackets and think about what our next accessory will be for the journey ahead.

EVERY STUDENT SUCCEEDS

With support from Congress, President Obama signed the Every Student Succeeds Act (ESSA) into law in December 2015. ESSA replaces the test-based accountability system of No Child Left Behind and reduces federal authority and influence in state decisions relative to academic standards, returning much of it to the state and local school districts.

SUPREME COURT DECISIONS

Each year, the U.S. Supreme Court hears up to 150 cases of the more than 7,000 cases it is asked to review. 2015's major rulings included: First Amendment rights were violated when an Arizona town placed size limits on signs announcing church services; same-sex couples could legally marry nationwide; states may prohibit judicial candidates from personally asking supporters for campaign contributions.

HISTORICAL VISIT TO CONGRESS

Pope Francis gave the 1st ever papal address to U.S. Congress, calling for the spirit of cooperation and challenging political leaders to join a global campaign against climate change and poverty.

THE ROYAL TREATMENT

The British Royal Family had much to celebrate in 2015. Prince William and Catherine, Duchess of Cambridge welcomed Princess Charlotte into the world on May 2; and on September 9, Queen Elizabeth II became the United Kingdom's longest reigning monarch, surpassing her great-great-grandmother Queen Victoria who reigned for 23,226 days, 16 hours and approximately 30 minutes.

SAFETY IN PARIS WITH SOCIAL MEDIA

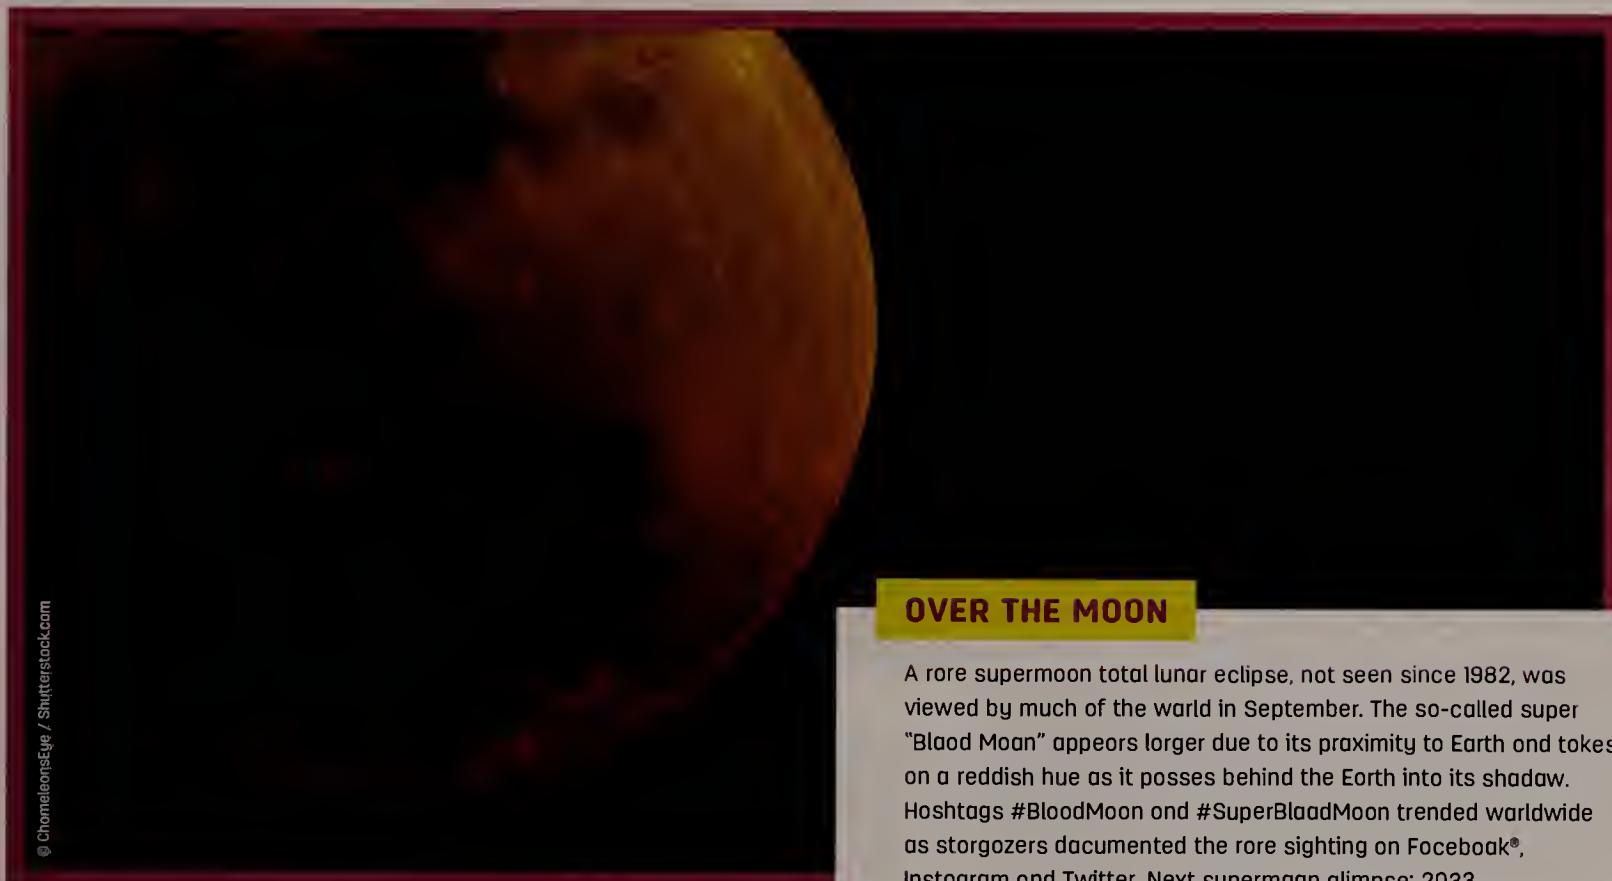

Social media helped support and bring people together in France, and around the world, after a series of attacks in Paris. Facebook® activated its "Safety Check" feature for the first time, and over 4 million people marked themselves as safe, notifying 360 million friends of their status. Users were also given the opportunity to show solidarity by overlaying their profile picture with the French flag. On Twitter, the hashtag #rechercheParis (search Paris) had more than 64,000 tweets in 24 hours after it was first used by a woman in France trying to locate family and friends.

DEBATES DRAW RECORD VIEWERSHIP

Early Republican and Democratic presidential debates drew record-setting television ratings, surpassing the NBA Finals, the MLB World Series™ and most NFL games. Candidates Donald Trump and Hillary Clinton were cited as the primary drivers of viewership. The Republicans averaged an audience of 24 million viewers, while the Democratic matchup brought in over 15 million.

OVER THE MOON

A rare supermoon total lunar eclipse, not seen since 1982, was viewed by much of the world in September. The so-called super "Blood Moon" appears larger due to its proximity to Earth and takes on a reddish hue as it passes behind the Earth into its shadow. Hashtags #BloodMoon and #SuperBloodMoon trended worldwide as stargazers documented the rare sighting on Facebook®, Instagram and Twitter. Next supermoon glimpse: 2033.

CHIPOTLE HIT WITH E. COLI OUTBREAK

An E. coli outbreak sickened more than 50 people at Chipotle Mexican Grill restaurants in 9 states. While the Centers for Disease Control and Prevention has not identified the source, Chipotle is changing the way it cooks and prepares food to increase the safety of its customers. Despite those efforts, Chipotle is currently under a federal criminal investigation for foodborne illness related to an outbreak at its Simi Valley, Calif. restaurant.

CHINA ENDS ONE-CHILD POLICY

China has announced an end to its decades-long one-child policy. Over concerns that an aging population could impact the country's economic ascent, all married couples will now be able to have 2 children. The one-child policy was introduced nationally in 1979 to slow the population growth rate and limit demands for water and other resources.

CECIL THE LION

Walter Palmer, a big game hunter, took down a 13-year-old lion named Cecil while in Zimbabwe for a guided hunt. The lion lived in Hwange National Park and was part of Oxford University's Wildlife Conservation Unit study. News of Palmer's action sparked criticism among activist groups and the general public, though Zimbabwe did not charge Palmer.

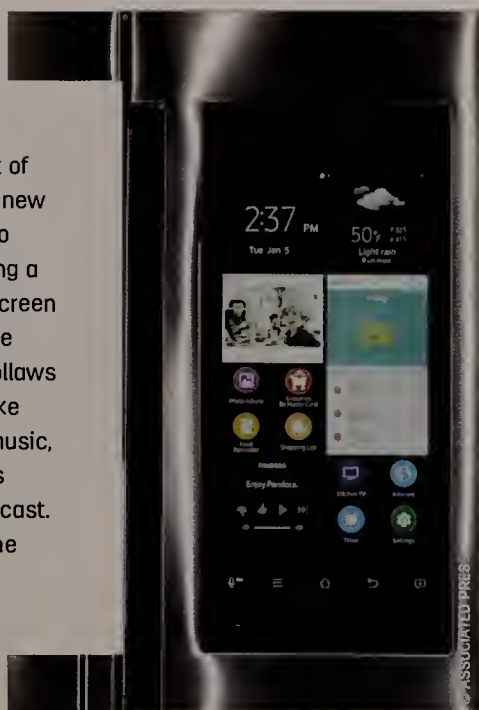

PERSON OF THE YEAR

German Chancellor Angela Merkel was named *TIME* magazine's 2015 Person of the Year, citing her handling of the European economic crisis over Greek debt and managing the European refugee influx. Merkel is only the 4th woman since 1927 to be named an individual winner outright. The others: American socialite Wallis Simpson (1936), Queen Elizabeth II (1952) and Corason Aquino (1986), the 11th president of the Philippines.

FRIDGE OF THE FUTURE

If the kitchen is the heart of a home, then Samsung's new smart fridge will make it a family's hub, too. Featuring a 21.5-inch vertical touch screen embedded in the door, the Family Hub Refrigerator allows users to leave notes, make shopping lists, listen to music, watch TV, order groceries and get the weather forecast. Looks like the fridge of the future is here—today.

ALIEN CLOUDS IN SOUTH AFRICA

When dark disc-like clouds loomed over the Table Mountain in Cape Town, looking like something out of a science fiction movie, it quickly went viral on social media. There was no real cause for concern, though. "Lenticular clouds," named for the lens-like shapes they create, have sometimes been confused for UFOs. They typically form when high, humid winds blow over mountainous terrain, and are different from other clouds because they do not move.

#BLACKLIVESMATTER

The social movement, Black Lives Matter, has focused international attention on racial inequality and criminal justice within the African American community. Supported by boycotts, protests and social media posts, activists are challenging the political system, pressing for change to address questions of race and justice.

HOVERBOARDS ARE HOT

The hoverboard was 2015's "in-demand" item. The mini-Segway® or self-balancing boards feature everything from built-in GPS to speakers for connection to a mobile phone. Despite their popularity, hoverboards experienced problems later in the year. They aren't permitted everywhere and some models caused explosions and house fires while being used.

DISCOVERIES

COMING TO A CONE NEAR YOU

Sticky fingers, be gone! Scientists at the University of Edinburgh discovered a naturally occurring protein that binds air, fat and water together, which can be used to create ultra smooth ice cream that resists melting. Don't rush to your favorite grocery store yet. Researchers say it will be another 3-5 years before it's available.

HEAD TILTS MELT HEARTS

When Fido tilts his head while you're talking, it's because he really understands. Right? According to a survey by *Psychology Today*, it might have more to do with vision. Dogs scan faces to read emotions. Tilting their heads when being talked to may be a way of compensating for their muzzles, which obscures part of their vision. So a head tilt is one way to see you better... and get treats for being adorable.

FDA BANS ARTIFICIAL TRANS FATS

The U.S. Food and Drug Administration, as part of its commitment to heart health of Americans, announced that the food industry has until June 2018 to eliminate artificial trans fats from processed food. Keep in mind, this will not eliminate trans fats totally from one's diet as naturally occurring trans fats are found in some food, such as meat and dairy products, as well as natural oils.

WATER ON MARS

NASA scientists have found evidence of liquid water on Mars, leading them to suspect that it is possible to have a habitable environment on the Red Planet. Discovery of water on Mars may make the planet more practical for human exploration and activity.

ENVIRONMENTAL EVENTS

Norway announced that it will permanently ban cars from Oslo, its capital city, by 2019. The traffic ban was part of a larger plan to reduce the emission of greenhouse gases by 50%. Over the next 3 years, the government plans to build 37 miles of new bike lanes and invest heavily in existing bus and tram networks.

A team of U.S. and Mexican scientists released 30 gallons of non-toxic fluorescent pink dye into the ocean off California and Mexico to learn how pollution moves and dilutes along the coasts. The study builds on the success of previous beach pollution studies and results will help develop models for predicting when it is or is not safe to go in the ocean.

Millions of tons of plastic are dumped into U.S. landfills each year, with little of it recyclable. Researchers at Stanford University discovered that mealworms could be a natural solution to the global plastic pollution problem. Fed a daily diet of Styrofoam™, the tiny worms broke down what was once believed to be a non-biodegradable product. Scientists hope this information will lead to a marine equivalent that can defend the Earth's oceans by digesting plastic.

\$25 TEST WINS \$50,000

Olivia Hollisey, a 17-year-old high school student from Conn., won the 2015 Google Science Fair grand prize and a \$50,000 scholarship with her creation of a low-cost, rapid detection test for the Ebola virus. Currently, a detection kit costs approximately \$1,000 and takes nearly 12 hours from screening to diagnosis, while Hollisey's costs \$25, and takes 30-minutes, working even when patients lack symptoms.

SUNSCREEN INGREDIENT TOXIC TO CORAL

Oxybenzone, a UV-filtering chemical used in sunscreen, has been found to have toxic effects on young coral and may be contributing to the destruction of coral reefs. The highest concentrations of the toxin have been found in Hawaii and the Caribbean. Since sunscreen protects against skin cancer, researchers advised using brands with titanium oxide or zinc oxide, which don't harm reefs.

TECHNOLOGY

IT'S FACEBOOK OFFICIAL

Facebook® confirmed it's rolling out a new set of 6 emojis, called "Reactions," that allow users to express a broader range of emotions than a simple "Like" – such as love, wow, anger or sadness. While Facebook picked the 6 reactions by consulting with sociologists, a dislike button is not among the options as the site worried it would be used in negative ways.

ARTIFICIALLY INTELLIGENT

The University of New South Wales in Australia defended its RoboCup World Championship title by defeating the Germans 3-1. With 300 teams from 47 countries, the finals involved waist-high robots on a 30-foot-long soccer field. The competition encourages development of robotics technology.

© University of Cambridge

Researchers at the University of Cambridge in the United Kingdom developed a "mother" robot that creates generations of smaller "baby" robots, evaluating and selecting the best to "survive." It is the first time natural selection has been successfully built into a machine, marking an important step forward in artificial intelligence.

NEW BILLBOARD CAN READ YOUR EMOTIONS

Advertising company M&C Saatchi tested billboards in London that used hidden Microsoft® Kinect™ cameras to read a viewer's facial expression—happy, sad or neutral. Featuring a fictitious coffee brand, the billboard adapted its advertisement by cycling through different images, designs, fonts and colors, ultimately crafting messages that resonated with each viewer.

SUPER DRONE

British YouTube user Gasturbine101 demonstrated his DIY flying machine—a chair anchored to a frame powered by 54 miniature drones. At a cost of \$9,200, the "Super Drone" hovered above the ground for about 10 minutes.

ORANGE YOU GLAD THIS FIGHTS POLLUTION?

Mercury contamination plagues many areas of the world, affecting food, soil and water supplies. Researchers at Flinders University in South Australia developed a new, inexpensive, non-toxic material from industrial waste and orange peels that reacts together to form a soft red rubber to absorb mercury, making it easy to clean up contaminated water. It addresses a healthier environment while also using waste to destroy waste.

BRAND NEW BEAK

Tieta the toucan was missing nearly half of her beak, which made it difficult for her to eat. A Brazilian research team spent nearly 3 months designing a new beak, which was then created on a 3D printer. At 1.5 inches long and weighing less than 1 ounce, it took her just 3 days to learn how to use it.

"TIE" YOUR SNEAKERS WITH ONE HAND

The newest sneaker in Nike's® lineup was developed after high school student Matthew Walzer wrote to the company asking for more accessible footwear for people with disabilities. Nike designers and Walzer collaborated for 3 years on prototypes. The result was the Flyease 8, a LeBron James-branded basketball shoe with a 1-handed fastening mechanism inspired by doors with hinges, and how they open and close.

A HELPING HAND

Open Bionics™ revolutionized prosthetic limb technology by using 3D printing to introduce some of the world's smallest bionic hands modeled after iconic Disney® characters. Kids who need prosthetic hands are getting bionic ones inspired by some of their favorites such as Iron Man, Queen Elsa's frosty blue gloves or a Star Wars™ lightsaber. While these bionic hands are designed for children, adults have been making requests too.

SPORTS

WORLD CUP WINNERS

The U.S. national soccer team avenged their 2011 loss to Japan by winning the 2015 FIFA Women's World Cup™ soccer final over Japan, 5-2. Records were broken, as the team became the 1st to win the tournament 3 times. Captain Carli Lloyd scored the fastest 2 goals in FIFA® history and was the 1st player in a Women's World Cup to get a hat trick (3 goals).

HOOP DREAMS

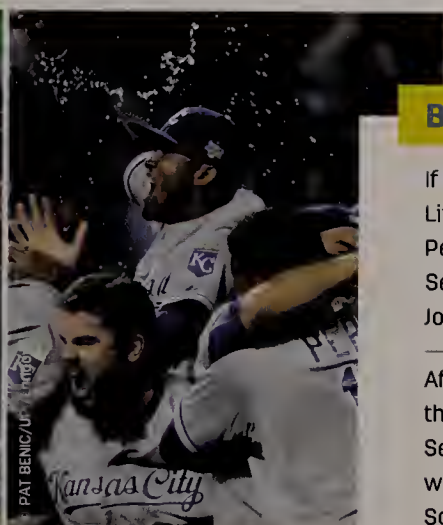

The Golden State Warriors defeated on injury-riddled Cleveland Cavaliers team, 105-97, in Game 6 of the 2015 NBA Finals to win their 1st championship since 1975. Forward Andre Iguodala was named MVP, becoming the 1st player to receive the honor without starting a game all season.

For the 3rd time in 5 years, the Minnesota Lynx clinched the WNBA Championship by defeating the Indiana Fever, 69-52 in Game 5 in front of their hometown crowd. MVP Sylvia Fowles, had 20 points and 11 rebounds.

FOR THE RECORD

While Cavaliers' star LeBron James didn't get a championship, he did become the youngest player in NBA history to score 25,000 points and the 20th player overall to achieve this milestone.

BIG HITTERS

If you like offense and home runs, this was the game to watch. In the 2015 Little League World Series®, Japan's Tokyo Little League defeated Lewisberry, Penn., 18-11. It was the highest-scoring title matchup in Little League World Series history with a combined 30 hits and 7 home runs. The victory gave Japan 11 titles overall.

After tying the game in the 9th inning, the Kansas City Royals™ defeated the New York Mets™ in the 13th inning of Game 5 to become the 2015 World Series™ Champions (7-2). Though the Royals have played in 4 World Series, this was their 1st championship in 30 years and the 2nd in team history. Catcher Salvador Perez was named MVP for his excellent defense behind the plate.

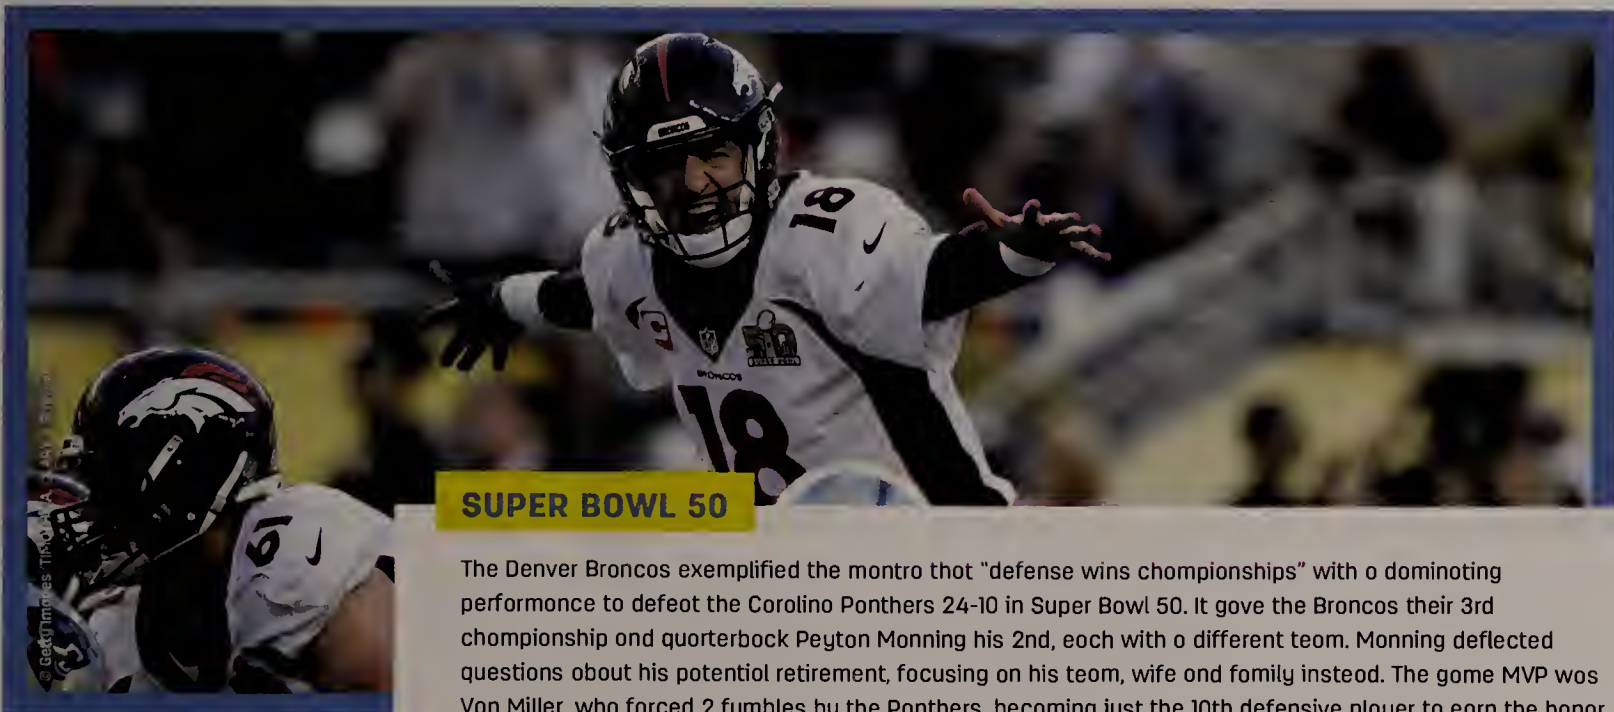

#IT'SALLABOUTTHECUP

For the 3rd time in 6 years, the Chicago Blackhawks™ won the Stanley Cup® with a 2-0 victory over the Tampa Bay Lightning™, making it their 1st on home ice since 1938. Defenseman Duncan Keith was unanimously voted playoff MVP.

SERENA SLAM

Serena Williams' 6th Wimbledon singles title also gave her a 2nd career "Serena Slam" (winning 4 Grand Slam tournaments in a row). Williams went 53-3 during 2015 and was chosen as *Sports Illustrated's* Sportsperson of the Year. She was the first individual female athlete honored by the magazine in over 30 years.

SUPER BOWL 50

The Denver Broncos exemplified the motto that "defense wins championships" with a dominating performance to defeat the Carolina Panthers 24-10 in Super Bowl 50. It gave the Broncos their 3rd championship and quarterback Peyton Manning his 2nd, each with a different team. Manning deflected questions about his potential retirement, focusing on his team, wife and family instead. The game MVP was Von Miller, who forced 2 fumbles by the Panthers, becoming just the 10th defensive player to earn the honor.

STAR WARS: THE FORCE AWAKENS BLASTS BOX OFFICE RECORDS

Strang reviews and loyal fan support helped *Star Wars™: The Force Awakens* shatter box office records. Its opening weekend earnings of \$248 million domestically beat the previous mark set by *Jurassic World™*. The film also hit the \$1 billion mark faster than any other movie in history, doing so in just 12 days. Looks like the Force is strong with this one.

TOP OF THE POPS

According to *Forbes* magazine, music's top lady in 2015 was pop sangstress Katy Perry. The 31-year-old singer earned \$135 million, while Taylor Swift came in 2nd place with \$80 million. Perry's success was largely due to her *Prismatic World Tour*, grossing more than \$2 million per city over the course of 126 shows.

MTV MOVIE AWARDS

The Fault in Our Stars was the big winner at the 2015 MTV Movie Awards, hosted by Amy Schumer. The film captured Movie of the Year, Best Female Performance for Shailene Woodley and Best Kiss for Woodley and her co-star, Ansel Elgort.

CHRIS STAPLETON TAKES CENTER STAGE

Newcomer Chris Stapleton stole the show at the 49th Country Music Association Awards. Though he didn't have a top 40 single on the country charts, he did bring home 3 awards as Male Vocalist of the Year, New Artist of the Year and Album of the Year for *Traveller*. Less surprising were Luke Bryan's 2nd straight win as Entertainer of the Year and Miranda Lambert as Female Vocalist of the Year — her 6th consecutive win..

CAN YOU SPELL CO-CHAMPIONS?

Gokul Venkatchalam, 14, and Vanya Shivashankar, 13, were the last 2 standing at the 2015 Scripps National Spelling Bee, besting 283 other contestants. Shivashankar's winning word was *scherschmitte*, meaning the art of paper-cutting designs. Venkatchalam's was *nunatak*, a hill or mountain completely surrounded by a glacier. This is the 2nd year in a row with co-champions.

ON TREND

ON CLOUD NINE

Teenagers spend nearly 9 hours a day using media for enjoyment, according to a report by Common Sense Media. Two-thirds of teens said they listen to music every day and 58% said the same about watching television. The study showed some difference between genders, with boys playing video games more than girls; though girls spent more time on social media or reading.

PUT IN A GOOD WORD

With over 1,700 new entries in the 2015 edition of Merriam-Webster's® dictionary, some of the words represent today's trendiest terms, like "photobomb," "meme," "jeggings" and "emoji." While you've likely used them for a while, the path to becoming a dictionary entry can be described in one word: usage. Editors study language usage and monitor how words are used and how often.

C-3PO GUIDES YOUR RIDE

If it seems like *Star Wars™: The Force Awakens* is everywhere, you may be right— including your car. Waze announced that Anthony Daniels, the real voice of droid C-3PO™, has been added to its navigation app, allowing drivers to experience a bit of “the Force” while winding through traffic. Unlike traditional navigation systems, finding the speediest route isn’t C-3PO’s only quest—he’ll also be looking for R2-D2™ and BB-8™ along the way in one of the app’s social features.

TO DYE FOR

Seeing lots of baby pink, blue and purple hair colors lately? That’s because “unicorn hair” is making its way across the country in the dyed locks of teens and celebrities. These playful pops of color are a fun way to change your hairstyle.

BRAIDS ARE HAVING A SERIOUS MOMENT

Google released its first-ever Beauty Trends Report with braids tapping the most frequently searched items. Pretty plaits or creative fishtails, inspired by your favorite A-list celebrity, are a low maintenance yet stylish look.

EMOJIS ARE EVERYWHERE

Emojis are one of the fastest growing forms of communication in history. Invented in the late 1990s by an employee of Japan’s predominant mobile phone service, emoji is the Japanese term for “picture characters.” The characters provide users with hundreds of universally recognized signs, symbols and gestures. Popularity was highlighted last year when July 17 was designated as World Emoji Day.

BRAIN GAMES

- If you wrote all of the numbers from 300 to 400 on a piece of paper, how many times would you have written the number 3?
- A water lily growing in a circular pond doubles in size every day. It takes 30 days to cover the whole pond. How long does it take to cover half the pond?
- You must cut a birthday cake into exactly 8 pieces, but you're only allowed to make 3 straight cuts, and you can't move the pieces of the cake as you cut. How can you do it?

ANSWERS

WHO AM I? 1) Taylor Swift 2) Zayn Malik 3) Adele
BRAIN GAME 1) 120: 100 threes in the hundreds place + 10 threes in the tens place + 10 threes in the ones place 2) 29 days 3) Use the first 2 cuts to make an X Through the top of the cake. Make the third cut horizontal (from the side of the cake). This will create 4 pieces on the top tier and 4 pieces on the bottom tier.
